SULTAN KUDARAT STATE UNIVERSITY – BACHELOR OF PHYSICAL EDUCATION	School:	SULTAN KUDARAT STATE UNIVERSITY	Grade Level:	3RD YEAR COLLEGE
	Teacher:	JULIANA DELOSO	Learning Area:	TECHNOLOGY FOR TEACHING AND LEARNING 1
	Teaching Dates and Time:		Quarter:	

I. CURRICULUM CONTENT, STANDARDS, AND LESSON COMPETENCIES	
A. Content Standards	The learners demonstrate understanding of **innovative technologies used in assessment tasks**, particularly the **use of ePortfolio**, including its purpose, features, components, benefits, and application in documenting and assessing learners' knowledge, skills, achievements, and learning progress.
B. Performance Standards	The learners **apply appropriate digital technologies in creating and organizing an ePortfolio** that showcases selected learning outputs, achievements, experiences, and reflections as evidence of learning and personal development.
C. Learning Competencies and Objectives	***Demonstrate understanding of the use of ePortfolio as an innovative technology for assessment and apply appropriate digital tools in creating an ePortfolio that documents and showcases learning progress and achievements.*** ***At the end of the lesson, the learners will be able to:*** 1. Define and describe ePortfolio and explain its purpose in the assessment of learning; 2. Identify the essential components and features of an ePortfolio, including learning outputs, achievements, feedback, and reflections; 3. Explain the role and importance of ePortfolio in assessment, particularly in documenting learning progress and providing evidence of learners' competencies; 4. Differentiate traditional portfolios from electronic portfolios (ePortfolios) in terms of organization, accessibility, presentation, and assessment; 5. Identify the advantages and challenges of using ePortfolio in teaching and learning; and ***6.*** Create a simple ePortfolio using an appropriate digital platform that contains selected learning outputs and personal reflections.

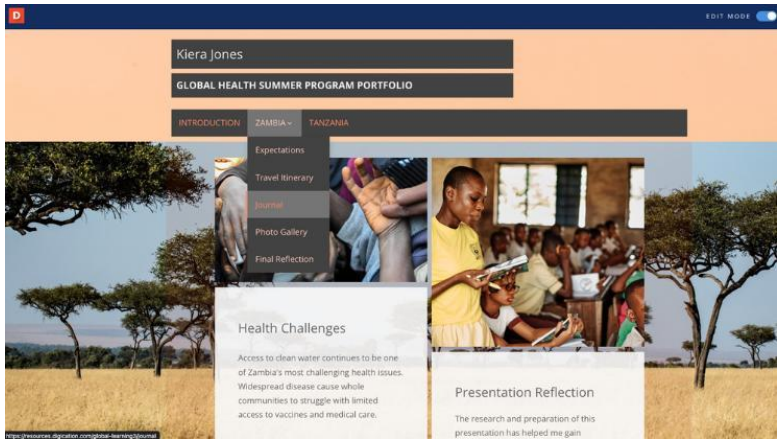

D. Content	***Theme:*** ***"Innovative Technologies for Assessment Tasks in Teaching and Learning"*** ***C.1 Use of ePortfolio*** ***I. ePortfolio*** • Meaning and definition of ePortfolio • Purpose of ePortfolio • Characteristics and features of ePortfolio • Components of an ePortfolio • Types of learning evidence included in an ePortfolio • ePortfolio as an assessment tool ***II. Uses of ePortfolio in Assessment*** • Documenting learning progress • Showcasing learners' achievements and competencies • Providing evidence of learning • Monitoring learner development • Encouraging self-assessment and reflection • Providing opportunities for feedback • Promoting learner ownership of learning ***III. Advantages and Challenges of ePortfolio*** **Advantages:** • Organized digital storage of learning outputs • Accessible and easy to update • Shows progress over time • Encourages reflection • Demonstrates skills and achievements • Supports technology-enhanced learning **Challenges:** • Limited access to devices or internet

	• Technical difficulties • Need for digital literacy • Time required to create and maintain the portfolio • Privacy and security concerns **IV. Creating an ePortfolio** • Selecting relevant learning outputs • Organizing digital evidence • Adding descriptions and reflections • Presenting achievements and competencies • Using appropriate digital platforms • Evaluating and improving the ePortfolio **ePortfolio Components** 1. Learner Profile/Introduction 2. Learning Goals 3. Learning Outputs 4. Projects and Activities 5. Achievements/Certificates 6. Multimedia Evidence 7. Feedback 8. Personal Reflection
E. Integration	**Digital Literacy and Responsible Technology Use** The lesson integrates **digital literacy, creativity, self-reflection, responsible use of technology, and learner-centered assessment** through the creation and presentation of an ePortfolio. Learners are encouraged to use digital tools responsibly while documenting their learning experiences, achievements, and progress.

II. LEARNING RESOURCES
A. References: • Chapter VI – *Innovative Technologies for Assessment Tasks in Teaching and Learning* • Learning materials on **C.1 Use of ePortfolio** **B. Other Learning Resources:** • Laptop/Computer • PowerPoint Presentation • Internet Connection • Sample ePortfolio • Smartphone/Tablet

III. TEACHING AND LEARNING PROCEDURE		**NOTES TO TEACHERS**
A. PRELIMINARY ACTIVITIES		
1. Opening Prayer	"Good day, everyone. Let us all stand and begin our class with a prayer."	The learners will stand and participate in the prayer.
2. Greetings	"Good day, class! How are you today?" "I hope everyone is ready to participate in our discussion and activities."	"Good day, Teacher!" "We are fine, Teacher!"
3. Checking of Attendance	"Before we proceed, let me check your attendance. Please say 'present' when your name is called."	The learners will respond "Present" when their names are called.

4. Classroom Rules	"Before we begin, let us remember our classroom rules: listen attentively, participate actively, respect everyone's ideas, and use digital devices responsibly."	The learners will listen and follow the classroom rules.
B. ACTIVATING PRIOR KNOWLEDGE		
Review	"Before we discuss our new topic, what do you understand by the word **portfolio**?"	The learners will share their prior knowledge about portfolios.
	"What kinds of school outputs do you usually keep in your portfolio?"	"Projects, assignments, activities, certificates, pictures, and other school works."
C. ESTABLISHING THE LESSON PURPOSE		
Motivation: "What's Inside?"	The teacher will show a traditional folder containing several student outputs and a digital folder/ePortfolio on the screen.  	The learners will observe the materials.

	"Which one do you think is easier to organize and access: a physical folder or a digital portfolio? Why?"	The learners will give their opinions and explain their answers.
	"What if all your important school outputs, achievements, photographs, videos, and reflections could be organized in one digital space?"	The learners will share their ideas.
	"That is what we are going to learn today. Our topic is **C.1 Use of ePortfolio**."	The learners will listen attentively.
D. Developing and Deepening Understanding	**1. EXPOSITION / DISCUSSION** 1. What is an ePortfolio? 2. Teacher's Activity **Activity: "What Can I Include in My ePortfolio?"** **Objective:** The learners will identify digital materials that can be included in an ePortfolio. **Instructions:** 1. Look at the photo provided by the teacher.  	

	2. Identify the different materials that can be included in an ePortfolio. 3. List **at least five (5)** examples. 4. Answer the guide questions below. **Examples:** 1. 2. 3. 4. 5. **Guide Questions:** 1. Why are these materials important to include in an ePortfolio? 2. How can these materials show your learning, achievements, and progress? 3. "An ePortfolio, or electronic portfolio, is a digital collection of a learner's work, achievements, experiences, and reflections. It provides evidence of a learner's progress and learning." 4. "Unlike a traditional portfolio that is commonly stored in a physical folder, an ePortfolio is created, stored, organized, and presented using digital technology." 5. Learners' Activity 6. The learners will listen, take notes, and provide examples of digital materials that can be included in an ePortfolio.	

	2. COMPONENTS OF AN ePortfolio **Teacher's Activity:** "An effective ePortfolio may contain several important components." The teacher will present the following: **1. Introduction/Profile** – basic information about the learner. **2. Learning Goals** – what the learner wants to achieve. **3. Learning Outputs** – assignments, projects, presentations, activities, and other works. **4. Achievements** – certificates, awards, recognitions, and accomplishments. **5. Multimedia Evidence** – photographs, videos, presentations, and other digital materials. **6. Feedback** – comments or evaluations from teachers and peers. **7. Reflection** – the learner's thoughts about what was learned, challenges encountered, and areas for improvement. **Teacher:** "Which component allows learners to explain what they learned from their experiences?" **Learners:** "Reflection, Teacher."	
	3. PURPOSES OF USING ePORTFOLIO **Teacher's Activity:** "Why do teachers and learners use ePortfolios?" The teacher will explain that an ePortfolio can be used to: • **document learning progress;** • **show evidence of learning;** • **organize learning outputs;** • **encourage self-reflection;** • **demonstrate skills and competencies;** • **provide feedback;** • **monitor improvement over time; and**	

	• **give learners greater ownership of their learning.** **Learners' Activity:** The learners will listen and give examples of how an ePortfolio may be useful in their studies**.**	
	4. ePORTFOLIO AS AN ASSESSMENT TOOL **Teacher's Activity:** "An ePortfolio is not simply a place where students store their work. It can also be used as an **assessment tool."** "For example, instead of looking only at a student's examination score, a teacher can examine the learner's collection of outputs, progress, skills, and reflections." "Through an ePortfolio, the teacher can see **what the learner produced, how the learner improved, and what the learner learned from the experience."** **Learners' Activity:** The learners will listen and answer questions about how an ePortfolio can provide evidence of learning.	
	5. ADVANTAGES OF ePORTFOLIO **Teacher's Activity:** "Let us identify the advantages of using an ePortfolio." The teacher will discuss: **Advantages:** 1. **Easy to organize –** learning materials can be stored in one digital location. 2. **Accessible –** materials can be accessed using appropriate digital devices. 3. **Shows progress –** learners can compare their previous and current work. 4. **Encourages reflection –** students can think about their learning experiences. 5. **Demonstrates skills –** learners can showcase their abilities and accomplishments. 6. **Supports digital learning –** it develops learners' ability to use technology responsibly.	

	7. **Provides evidence for assessment** – teachers can use collected outputs and reflections to evaluate learning. **Learners' Activity:** The learners will participate in the discussion and identify which advantages they find most useful.	
	6. CHALLENGES IN USING ePORTFOLIO **Teacher's Activity:** "Although ePortfolio has many advantages, what challenges might students encounter?" The teacher will explain possible challenges such as: • limited access to devices or internet; • lack of digital skills; • difficulty organizing large amounts of information; • time required to create and maintain the portfolio; • privacy and security concerns; and • technical problems. **Learners' Activity:** The learners will share possible solutions to these challenges.	
E. WORKED EXAMPLE	**Activity 1: "Traditional or Electronic?"** **Instructions:** The teacher will present different situations. The learners will identify whether the situation describes a Traditional Portfolio or an ePortfolio. 1. A student keeps printed projects inside a folder. 2. A student uploads projects, videos, and reflections to a digital platform. 3. A teacher reviews printed artwork collected by a student. 4. A student creates a digital collection of certificates and achievements. 5. A learner uploads a reflection about a completed project.	

	Expected Answers: 1. Traditional Portfolio 2. ePortfolio 3. Traditional Portfolio 4. ePortfolio 5. ePortfolio	
F. APPLICATION ACTIVITY	**Activity 2: "BUILD MY MINI ePORTFOLIO"** **Objective:** To allow learners to apply their understanding of ePortfolio by organizing selected learning evidence digitally. **Instructions:** The learners will create a Mini ePortfolio containing the following: **Page 1 – Profile** • Name • Course/Year • Short introduction **Page 2 – Learning Goals** • What do you want to learn or improve? **Page 3 – My Best Output** • Title of output • Picture or copy of the work • Short description **Page 4 – My Achievement** • Certificate, award, project, or accomplishment **Page 5 – My Reflection** **Answer:** "What did I learn from the outputs I included in my ePortfolio, and how have I improved?"	The learners may use **PowerPoint, Canva, Google Slides, or another available digital platform.**

G. PRESENTATION OF OUTPUT	**Teacher's Activity:** "I will ask selected learners to present their Mini ePortfolio." "During your presentation, explain why you selected your outputs and what these outputs show about your learning progress." **Learners' Activity:** Selected learners will present their Mini ePortfolio and explain their chosen outputs and reflections. Other learners will listen and provide constructive feedback.	
H. GENERALIZATION	**Teacher's Activity:** "Before we proceed to the evaluation, let us summarize our lesson." **1. "What is an ePortfolio?"** **Learners:** "An ePortfolio is a digital collection of learning outputs, achievements, experiences, and reflections." **2.** "What is the purpose of an ePortfolio?" **Learners:** "It documents learning, shows progress, provides evidence, and encourages reflection." 3. "What can be included in an ePortfolio?" **Learners:** "Projects, assignments, pictures, videos, certificates, presentations, feedback, and reflections." 4. "How can teachers use an ePortfolio for assessment?" **Learners:** "Teachers can evaluate the learner's outputs, progress, skills, and reflections."	

IV. EVALUATING LEARNING: FORMATIVE ASSESSMENT AND TEACHER'S REFLECTION		NOTES TO TEACHERS
A. Evaluating Learning	**Activity 3: "CHECK YOUR UNDERSTANDING"** **Direction:** Choose the letter of the best answer. **1. What does ePortfolio mean?** A. Electronic examination B. Electronic portfolio C. Educational program D. Electronic presentation **Answer: B** **2. Which of the following is an example of an ePortfolio material?** A. Digital project B. School uniform C. Classroom chair D. School building **Answer: A** **3. Which component allows learners to discuss what they learned from an activity?** A. Profile B. Reflection C. Title page D. Attendance **Answer: B** **4. Which is an important purpose of an ePortfolio?** A. To hide learning outputs B. To document learning progress C. To replace all classroom activities D. To eliminate assessment	

	Answer: B **5. Which is an advantage of an ePortfolio?** A. It prevents reflection. B. It makes learning outputs difficult to access. C. It can show a learner's progress over time. D. It eliminates the need for learning activities. **Answer: C**	

V.

ePORTFOLIO RUBRIC

Criteria	4 – Excellent	3 – Good	2 – Fair	1 – Needs Improvement
Content	Complete and relevant	Mostly complete	Some information missing	Very limited
Organization	Very organized and easy to navigate	Organized	Somewhat organized	Disorganized
Learning Evidence	Excellent selection of outputs	Good selection	Limited outputs	Insufficient outputs
Reflection	Deep and meaningful	Clear reflection	Limited reflection	No meaningful reflection
Creativity/Design	Very creative and appealing	Creative	Some creativity	Minimal creativity
Presentation	Clear and confident	Clear	Somewhat unclear	Difficult to understand
TOTAL	**24 points**			

<table>
<tr><td rowspan="5">B. Teacher's Remarks</td><td>Note observations on any of the following areas:</td><td>Problems Encountered</td><td>Strategies Explored</td><td rowspan="5"></td></tr>
<tr><td>Effective Practices</td><td></td><td></td></tr>
<tr><td>Materials Used</td><td></td><td></td></tr>
<tr><td>Learner Engagement/Interaction</td><td></td><td></td></tr>
<tr><td>Others</td><td></td><td></td></tr>
<tr><td>C. Teacher's Reflection</td><td colspan="3">Principles Behind the Teaching
The lesson used discussion, demonstration, and hands-on activities to help learners understand how ePortfolio can be used as a modern assessment tool.
Students
The learners were given opportunities to participate, analyze examples, share their ideas, and create their own Mini ePortfolio. Through the activity, learners were able to recognize the importance of documenting and reflecting on their learning.
Ways Forward
The teacher may provide additional examples of ePortfolios and introduce different digital platforms that learners can use to develop more comprehensive portfolios in future lessons.
KEY TAKEAWAY
An ePortfolio is more than a digital collection of school works. It is a meaningful assessment tool that documents a learner's progress, demonstrates competencies and achievements, and encourages reflection on the learning process.</td><td></td></tr>
